## VABILO

Fakulteta za industrijski inženiring Novo mesto vabi vse študente 1. letnika dodiplomskega študijskega programa Inženiring in vozila na predavanje pri predmetu *Matematika z aplikacijami II*, pri katerem bo sodelovala profesorica z mednarodno priznane univerze Keele University, UK, **dr. Ludmila Prikazchikova**.

**Dr. Ludmila Prikazchikova** received her PhD from the University of Salford, UK, in 2004. After working for several years in Moscow (Russia) first as a Research Associate at Russian State Railway University and then as a Senior System Analyst at Alfa-Bank she moved to UK in 2013. Since 2015 she is employed by Keele University where she is currently a Lecturer in Applied Mathematics. Dr. Prikazchikova has co-authored around 20 publications in international journals. She has presented over 20 talks, including leading UK universities, such as Oxford, St Andrews, and internationally, in Germany, Italy, Poland, Russia, Slovenia, Spain, and USA. The research interests of Dr. Prikazchikova include applied and computational mathematics including multi-scale mathematical modelling, applied PDEs, wave propagation and asymptotic methods.

Predavanje v sodelovanju z dr. Ludmilo Prikazchikovo bo potekalo v **ponedeljek, 10. 5. 2021, od 16. do 19. ure**, v virtualnem okolju MS Teams. Predavanje bo v slovenskem, prav tako v angleškem jeziku.

Povezava na predavanje:
